Bioelectric Bodysuit

## Meet Your New Superpower

*The only wearable with bioelectric signals for increasing circulating Klotho and Follistatin*

BodStim & BodStim Pro

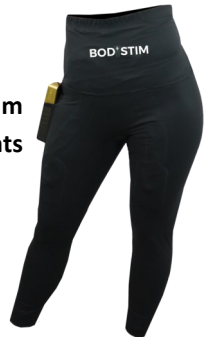

- A 20-minute BodStim workout is equivalent to 2-3 hours of regular exercise
- Get better results in less time, with reduced impact
- Greater muscle activation — integrated electrodes stimulate the deepest muscle fibers not reached in conventional training
- Tones and defines muscles, stimulates fat loss by increasing metabolism for up to 72 hours, and improves cellulite
- Follow your workout with 40 minutes of patented protein signals for two powerful muscle-building proteins - Follistatin and Klotho
- FDA-cleared to stimulate healthy muscles to improve muscle performance
- Configurations for personal use and for professional use by multiple clients

## Klothoyears

### Klotho is important for overall health and longevity

More than 3,500 published studies document Klotho's importance in wellness and longevity - it may be the most significant anti-aging protein discovered to date. Low levels of Klotho have been associated with accelerating a variety of age-related diseases including osteoporosis, kidney failure, cardiovascular disease, cancer, diabetes, Alzheimer's disease, and autoimmune conditions. Researchers are investigating ways to increase Klotho levels as a potential therapy for these and many other age-related health issues.

Lionheart Health offers the only available Klotho test for consumers. We partner with a mobile phlebotomy company that sends a phlebotomist to your home to draw your sample and send it to our lab in San Diego. Visit the [klothoyears.lionhearthealthstim.com](http://klothoyears.lionhearthealthstim.com) for more information

 LIONHEARTHEALTH

# LIONHEARTHEALTH

## *The Future of Wellness and Longevity*

Lionheart Health develops bioelectric and biologic wellness innovations to help people lead longer, healthier lives. Since 1982, Leonhardt Ventures, its parent company, has created 35+ innovations that employ patented bioelectric protein expressions to treat the causes, rather than the symptoms of health conditions. Current Lionheart Health products include:

- **BodStim™** for exercise enhancement and longevity
- **KlothoYears™** lab testing service for Klotho levels
- **SkinStim™** for skin rejuvenation
- **HairCellStim™** for hair regeneration and restoration
- **ErectiStim™** for erectile enhancement and sexual wellness
- **OrthoStim™** for knee and joint regeneration
- **KlothoYears™** lab testing service for measuring Klotho

**SkinStim** for skin rejuvenation - muscle, collagen, tone, and texture improvement.
